

MUHAMMED FASIL PV

Full Stack Developer | Flutter, React, Node.js & AI

Location: Dubai, UAE **Availability:** Immediate Joiner (Visa Ready) **Phone:** +971 555923545

WhatsApp: +971 555923545 **Email:** faztrick@gmail.com **LinkedIn:** linkedin.com/in/faztrick

GitHub: github.com/faztrick **Portfolio:** uaecodes.com

PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** with 10+ years of experience driving **Digital Transformation** by building high-performance mobile, web, and desktop applications using **Flutter**, **React**, and **WPF (C#)**. Proven expertise in implementing **MVVM architecture** for enterprise-grade **ERP systems**, **Fintech solutions**, **Point-of-Sale (POS)**, and **Smart Retail** automation across the GCC region.

Expert in integrating **AI/ML** capabilities, **computer vision (YOLO)**, and **LLMs (OpenAI, LangChain)** into user-centric applications. Proficient in **Cloud-Native** development (**Docker**, **Kubernetes**, **AWS**, **Azure**), **DevOps** automation, and **IoT** edge computing. Strong background in network security and secure architecture for scalable business solutions.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Idol Technology LLC, Dubai, UAE

August 2024 – Present

- Architected and deployed **IdolIMEA ERP system** driving **digital transformation** for **50+ retail branches** across the GCC, integrating **POS**, **QMS**, and **IoT automation**
- Developed **IdolQueue (i-QMS)** using **Flutter** and **Node.js** with offline-first architecture, **MQTT** real-time messaging, and multi-branch analytics dashboards
- Implemented **AI-powered chatbot automation** for **WhatsApp Business API** and **Telegram**, reducing customer support response time by **70%**
- Integrated **YOLO object detection** for **missed scan** identification and **loss prevention** with **Android AIDL** for LED/GPIO control in self-checkout kiosks, reducing shrinkage by **35%**
- Engineered **hybrid cloud synchronization (MySQL ↔ Apache Hive)** enabling offline analytics, real-time data replication, and disaster recovery
- Built **WireGuard VPN mesh network** using **MikroTik RouterOS** for secure multi-site connectivity
- Deployed **IdolQueue (i-QMS)** to production at **Union Coop** (4 branches: Al Barsha, Mirdif, Jumeirah, Al Warqa) and **Carrefour Al Zahia**, achieving stable operations and improved queue management
- Implemented **LiveKit WebRTC** for real-time video support; configured **Nginx reverse proxy** with TLS and TURN/STUN for secure, reliable connectivity

Technologies: Flutter, React, Node.js, Python, YOLO, OpenAI, MQTT, Docker, MySQL, Hive, Android AIDL, MikroTik, WireGuard

Senior Software Engineer

Screl Info Pvt Ltd, India / UAE

April 2019 – January 2024

- Led development of **SincA ERP platform** (Flutter + Node.js + Python AI backend)
- Implemented **AI-powered dashboards** and predictive analytics
- Developed **OCR invoice parsing system** with 95% accuracy

Technologies: Flutter, Node.js, Python, AI/ML, OCR, SQL

Software Developer

Sincap Info Pvt Ltd, Calicut, India

March 2014 – March 2019

- Developed comprehensive **ERP, accounting, and billing systems** using **WPF (C#)** with **MVVM architecture**
- Built admin portals and reporting dashboards

Technologies: C#, WPF, MVVM, .NET Framework, SQL Server, Crystal Reports

MAJOR PROJECTS

- **Self-Checkout AI Kiosk** — **YOLO object detection** for **missed scan** identification and **loss prevention** plus **Android AIDL** LED/GPIO control.
- **IdoIMEA ERP** — Retail ERP integrating **POS, IoT automation** and **AI analytics**.
- **IdoQueue (i-QMS)** — Offline-first queue automation (**Flutter MVVM + Node.js + MQTT**) — deployed at **Union Coop** (4 branches: Al Barsha, Mirdif, Jumeirah, Al Warqa) and **Carrefour Al Zahia**.
- **IdoVPN Network** — **MikroTik WireGuard mesh** powering secure branch connectivity.
- **Local AI Agents** — Edge-hosted **LLM copilots** for retail operations and support.
- **Live Video Support Platform** — **LiveKit-powered WebRTC** calls with **TURN/STUN** and **Nginx reverse proxy/TLS** for secure real-time assistance.
- **Hybrid Sync Engine** — **MySQL ↔ Hive** delta tracking for POS continuity.
- **ESL Tools & IoT Flasher** — **Solum/OEPL tag management**, **ESP32 flash tools**, and **MQTT controllers** for retail pricing automation.
- **Book AIDL** — **Flutter MVVM** booking platform for clinics/salons with **Material 3 UI** and real-time chatbots.
- **LampAidlInterface** — **Android Kotlin + Flutter IPC** bridge for real-time LED and lamp automation in kiosks.
- **BlueBolt Automation** — **ESP-based** smart office/home automation system with mobile app control.
- **Enterprise ERP & Billing System** — **WPF (C#)** desktop application with **MVVM architecture** for multi-company accounting.
- **Azure Image Server Function** — Lightweight on-demand image resize & delivery layer for portfolio assets.
- **Domain & DNS Automation Toolkit** — **PowerShell scripts** provisioning custom domains & HTTPS for static web apps.
- **Vlogfied** — Video-based restaurant discovery with **AI content tagging**.
- **Hozzo** — Service booking platform with mobile-first UX and real-time notifications.
- **Delivery Pro** — Route-optimized delivery and rider tracking platform with dispatch dashboards.
- **UZDParts WhatsApp Automation** — **WhatsApp** order capture, catalog browsing, and status notifications.
- **Real Estate Automation** — Lead capture and CRM pipeline automation with **WhatsApp outreach** and listing sync.

EDUCATION

Diploma in Computer Engineering

JDT Islam Polytechnic, Calicut, Kerala, India

June 2010 – March 2013

Specialized in Software Development, Database Systems, and Computer Networks

ADDITIONAL INFORMATION

Location: Dubai, UAE · **Work Authorization:** Valid UAE Work Visa · **Nationality:** Indian · **UAE Driving License:** Valid

Languages: English (Fluent), Malayalam (Native), Hindi (Basic), Arabic (Very Basic)
